EDUCATION

NIT Jalandhar

B.Tech - Information Technology

June 2020 – May 2024

Jalandhar, Punjab

WORK EXPERIENCE

Software Developer

October 2024 – Present

Polyvalent Digital Services

- Engineered a high-performance e-commerce platform using **React.js**, enhancing user experience and reducing page load time.
- Integrated **Firebase** for scalable data management, optimizing query performance for over **60K+ users**.
- Developed and maintained a **FastAPI**-powered cafe dashboard, accelerating report generation.
- Designed and implemented a **B2B cafe & inventory management system**, streamlining stock tracking and order fulfillment for operational efficiency.

Data Analytics Intern

May 2023 – July 2023

EduLyt

- Analyzed **500K+** credit card transactions, identifying purchasing patterns and optimizing product recommendations.
- Implemented **SQL** queries, boosting customer retention by **15%** and driving **\$500K** in revenue growth.
- Refined discount criteria, enhancing targeted promotions and customer engagement.

PROJECTS

ShareEase: Hassle-free File Sharing & Email Links

January 2024 – March 2024

MERN Stack

- Developed a seamless file-sharing platform enabling secure uploads and unique download link generation.
- Integrated email-based sharing, allowing users to send download links directly from the platform, enhancing accessibility.
- Optimized backend performance, reducing file upload time by **40%** for a smoother user experience.
- Enabled access without mandatory sign-ups, streamlining file-sharing efficiency.
- Tech: **MongoDB, Express.js, React.js, Node.js**.

AI-Generated Art Studio: Downloadable Masterpieces

November 2023 – December 2023

MERN Stack

- Built an AI-powered image generator leveraging **OpenAI's deep learning models** to create images based on user prompts.
- Implemented an interactive UI, allowing users to experiment with different prompts and fine-tune outputs.
- Provided seamless image download functionality for enhanced user experience.
- Tech: **MongoDB, Express.js, React.js, Node.js, OpenAI API**.

ACHIEVEMENTS & AWARDS

- * **600+** DSA problems solved across platforms.
- * **Ranked 29th / 3400+** in GFG Weekly Coding Contest 164, solving all 4 problems in **43 minutes**.
- * Successfully led a **3-member** minor project team and a **4-member** major project team.

TECHNICAL SKILLS

- * **Languages:** Python, JavaScript, C, C++, SQL.
- * **Web Development:** React.js, Node.js, Express, HTML, CSS, Flask, FastAPI.
- * **Databases:** MongoDB, MySQL, Firebase.
- * **Tools:** Git, GitHub, VS Code, Postman, Bitwise SSH.
- * **Concepts:** Data Structures & Algorithms, OOP, OS, DBMS, Agile.

PROFILE LINKS

- * **LeetCode:** **1575** rating, **300+** problems solved.
- * **GeeksforGeeks:** **1822 (4)** rating, **300+** problems, **700+** points.
